Dedication

MISS CAROL KULICK

To the members of the Senior Class, a dedicated teacher is one who possesses the qualities of understanding, one who is willing to be of aid to students both in and out of the classroom, but above all a friend. As a teacher at Jefferson, Miss Carol Kulick has been all of these; and so we the class of 1968 dedicate our yearbook to her

Those of us who were fortunate enough to have met with Miss Kulick in the classroom realize that she is a person with insight and determination; a fine example to each of us. She was an understanding person willing to take an interest in our endeavors. Miss Kulick shared an interest with us in our extracurricular activities. When a helping hand was needed, she was always there to offer her services to us. As one of our class sponsors she helped lead our class to its many successful accomplishments.

The Class of 1968 owes much more to Miss Kulick than it can offer. She has not only been the dedicated teacher we will always remember, but also a true friend to all who were associated with her. To Miss Kulick we extend our sincere thanks and best wishes.

MR. JOHN JACKSON

The class of 1968 dedicates this yearbook to Mr. John Jackson, a man who never ceases to give everything he has for the welfare of those under his supervision. To the handicapped student at Jefferson, he has been a counselor, a teacher, and a helpful friend. He has been a true "guiding light" to those of us who might not have come this far without his help.

It is true that he has inspired the handicapped persons at Jefferson, but he has served the able-bodied as well. Mr. Jackson has always listened to a person with any problems, may he walk or not. He treats everyone as an individual. An individual has limitations; Mr. Jackson realizes this and succeeds in making people strive beyond their limitations.

He has shown us what it means to be called a Jeffersonian, and more important, to be an American. Because of this man, we realize the word "American" ends in the words "I can".

Mr. Jackson, we salute you and thank you.

Prologue

HAPPINESS IS . . . .

. . . . remembering that first day as eighth graders, when we came to Jefferson, a little apprehensive and somewhat bewildered at the thought of high school.

. . . . that warm feeling of knowing that you "belong".

. . . . the beginning of the new school year.

. . . . reciting the Pledge of Allegience at an assembly.

. . . . the spirit with which we cheered our teams on to victory.

. . . . working in a booth at a Jeffe-Gras.

. . . . having your homework done on time.

. . . . taking first prize at an art show.

. . . . making an all-scholastic sport.

, . . . being in the winning homeroom during the Candy Sale.

. . . . a ski trip to Bristol.

. . . . filling the counselors' basket with apple cores.

. . . . finding help when you need it.

. . . . the sound of the bell at 3:05.

. . . . the inspiration that we have gained from associating with our orthopedics.

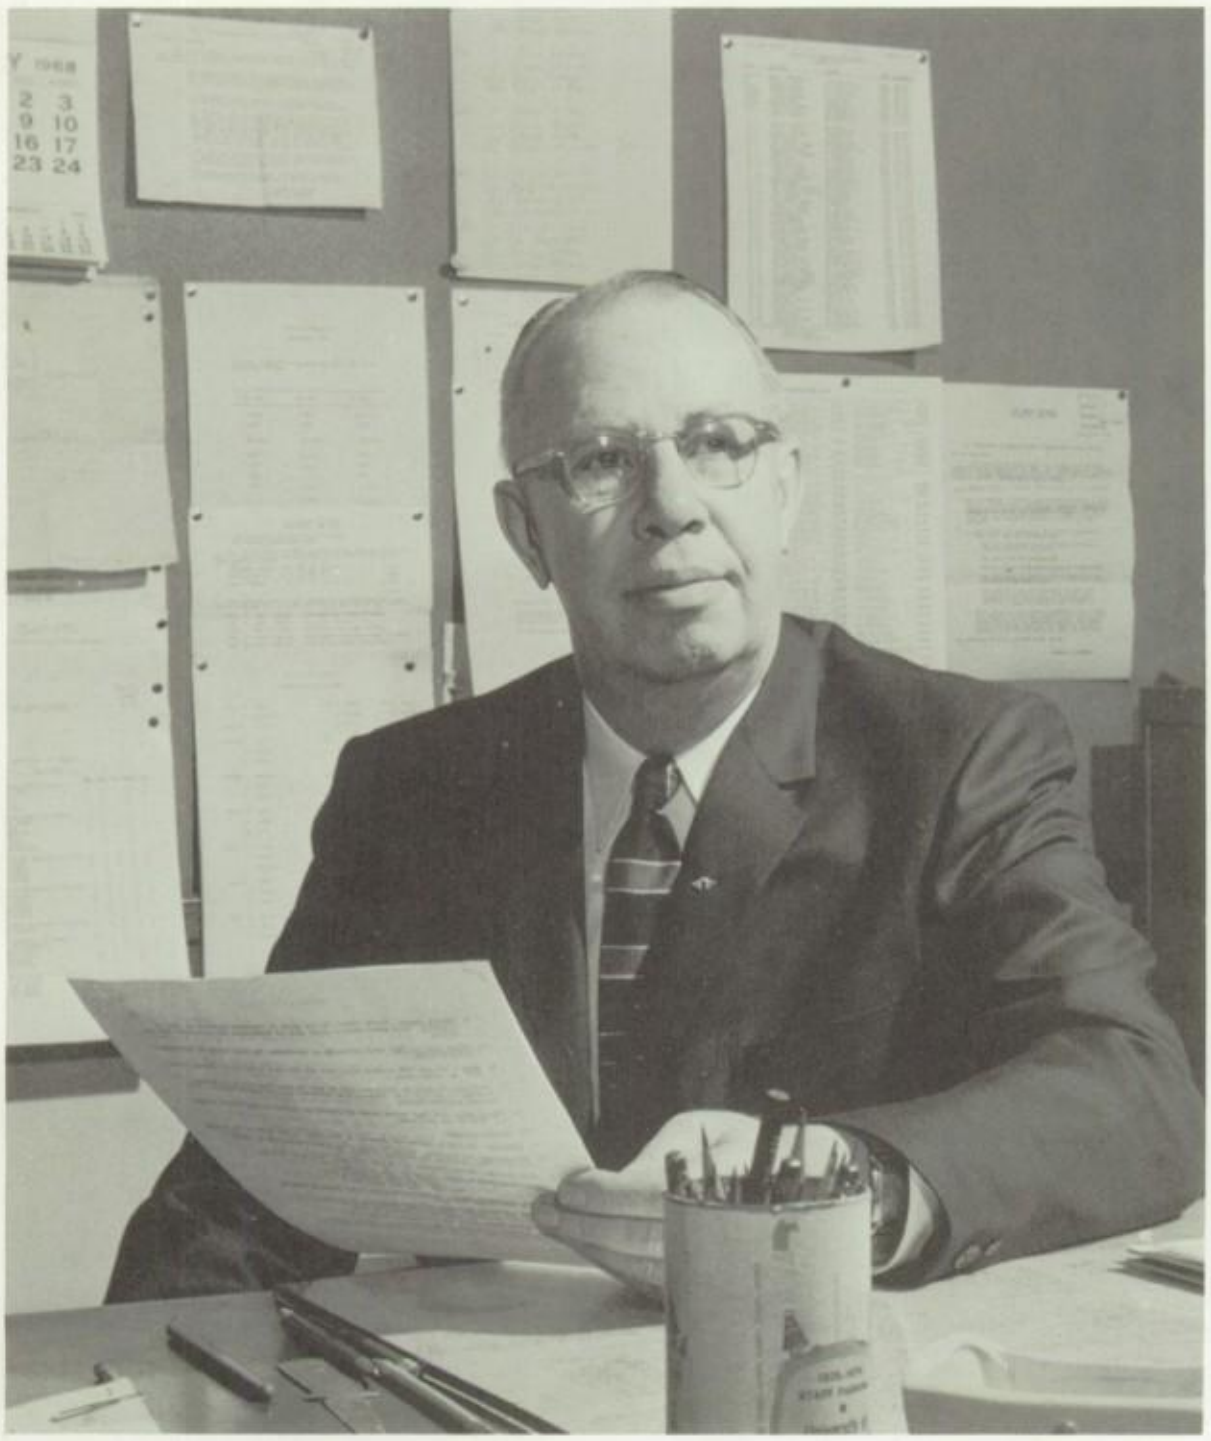
. . . . the memory of when we danced in Shangri-la.

. . . . the excitement of a Senior Week and a Senior Ball.

. . . . having been associated with some of the most wonderful people in the world.

. . . . graduation.

. . . . Jefferson.



MR. RICHARD W. MANSKE, *Principal*

Principal

To the Class of 1968

During the past few years we have watched with interest as each of you has progressed at Jefferson. We have noted with pride your ability to solve your daily problems. Now, at graduation time, we pass along to you all the problems of the world that we, as adults, have failed to solve. You will find there are many.

Each generation must work out its own destiny. You have the knowledge and ability to make the world of the future the best ever. I wish every member of the Class of 1968 the greatest possible success.

Richard W. Manske

Vice-Principal

HAPPINESS IS . . .

. . . thinking back over the years to September 1963 and remembering a group of awkward and apprehensive young 8th grade boys and girls.

. . . looking now at a group of poised and relaxed mature 12th grade young men and women.

. . . anticipating in some future time a group of interested and productive citizens of our community.

Class of 1968, I offer my best wishes for the future and the reminder that HAPPINESS IS . . . YOU.

MR. NORMAN J. MORREALE, *Vice Principal*

Deans

Miss E. Beard, *Dean of Girls*

As our Deans, you have always been willing to listen to our difficulties and to aid us in every way possible. You have played a very important role in our lives at Jefferson. There are not words enough to thank you for the interest you have shown us as a class. Miss Beard and Mr. Lombart, the class of 1968 wishes to express its deepest thanks to you for your interest, your guidance, and your help.

Mr. G. Lombart, *Dean of Boys*

MRS. W. KYLE, *Counselor*

MR. G. CAMPO, *Counselor*

DR. J. NOBLE, *Counselor*

Counselors

Our Counselors have enabled us to overcome the sometimes bewildering experiences which we have encountered through our years at Jefferson. In times of trouble, when our need was at it s greatest, they were always there with words of encouragement. For a great many of us, a large portion of our futures will be affected by their guidance.

Schedule making, helping us in deciding which course to follow after graduation, and offering a personal interest in our problems are just a few of the many tasks they perform. Above all, these dedicated people have been friends to each and every one of us. They have always found time for a friendly chat or an interested observation.

Now as we, the class of '68, pass through the doors of Jefferson for the last time, we wish to give our sincerest thanks to our counselors, Mrs. Kyle, Mr. Campo, and Dr. Noble for all they have done for us.

being a senior

Mrs. Mary Coulter, *Sponsor*

Mr. Robert Stevenson, *Sponsor*

With gratitude the Senior Class of 1968 thanks our sponsors Mr. Robert Stevenson and Mrs. Mary Coulter for helping us attain those goals every class dreams of achieving. They have not led us like sheep, but rather as mature young adults showing us the democratic practices of our society. Any class can function, even without a student government. Teachers and the administration can handle all student activities simply and efficiently, but there is a maturing quality acquired through the students handling of their own affairs. The emphasis shouldn't be placed on having an activity but on the ability to control and organize as a group without the big hand of authority resting on your shoulder. We were never alone in our struggles. Whenever an insurmountable problem arose our sponsors would always be there to ease our worries and help solve the problem logically. This year we will be leaving Jefferson and the two class sponsors along with our other homeroom teachers have watched and helped our class grow from 8th graders to Seniors. Now we would like to thank them for the time and energy they have given us on our path to adulthood.

Senior Homeroom Teachers

Mr. R. Agnello
Mrs. M. Coulter
Mr. R. Stevenson
Miss J. Dorschel
Mr. R. Wedel

Over the past five years these fine human beings have taken our attendance, and have been one person collection agencies for a host of activities such as class dues, senior rings, yearbooks, magazine sales, and many more, too numerous to mention. They have kept us informed of school policy, decisions, and changes as they have occurred. They have watched us grow into mature young men and women, perhaps never realizing the enormous part they have played in our development. The patience that they have exhibited, the friendship that they have offered, the warmth that they have exuted, and the interest in us that they have displayed are in a large measure the reasons for our success upon this graduation. To them we extend our sincere gratitude.

. . . happiness is having known you the past five years.

O hail to Thee, our Jefferson,
We raise this song to Thee;
The memories dear that linger here
Are bound with loyalty.
O hail to Thee our Jefferson,
This joyful lay now here;
Within thy walls thy hallowed halls,
Our praises still ring clear.

O hail to Thee, dear Jefferson,
Our hearts, our thoughts are true;
This Solemn vow is given now.
A pledge of love to you.

English Department

The ability to communicate effectively in English, to make one's thoughts and feelings clear to others, has never been needed more than it is today. Without question this remains the fundamental purpose of our English program. However, the digestion, interpretation, appreciation, and use of the printed words are inherent parts of this same purpose. We all need intellectual shelters against the verbal fallout that is increasing at an unbelievable rate. To the accomplishment of these tasks, to enabling each student to realize and utilize the power of language, especially as a social force, the English department is and will remain dedicated.

Business Education Department

The Business Education Department tries to provide an adequate program of vocational preparation for those boys and girls who will enter business upon completing high school. Our courses are also available to those high school students planning to go to college.

We believe that business education can make an important contribution to the economic literacy of every high school boy and girl.

Social Studies Department

The Social Studies Department at Jefferson High School exists to provide our students with a meaningful and exciting experience that will help recapture the spirit of the past as well as reveal the complex nature of human development. As each boy and girl progresses through the sequence of courses, from the seventh to the twelfth grade, each of the many disciplines of the social sciences is revealed as being part of the whole story of the 'human adventure'. Anthropology, sociology, archeology, psychology, geography, economics; each of these and their inter-relationships in the study of man is carefully analyzed. Each student becomes aware of the complex problems of the modern age, seeking answers to these problems by a study of their causes in the past.

Our ultimate objective is that every young American now enrolled at Jefferson High School will emerge from this school fully able to play his full part as a citizen of this great republic, well aware of his rights and of his responsibilities, and endowed with a love of his country and of his fellow man.

Science Department

All students have different needs. In the science department we try to meet these needs as they apply to the science class. We acquaint students with the science concepts that exist in their everyday lives. We attempt to arouse an interest in this science of their environment. Students become aware of the many new products and the many changes that science has brought about in the world. Perhaps the most important desire the science department has for students is that they develop an ability to think and solve problems by a logical method. Knowledge gained from solved problems can then be applied to new situations. Science values therefore carry over and are used in other subject areas, and in the student's life after high school.

Mathematics

One of the greatest needs in our present day scientific age is for people who can use their knowledge of mathematics and apply it to the new and unsolved problems with which we are confronted. In the Mathematics Department at Jefferson, in hopes of meeting this challenge, we attempt to train students to use their minds as well as their understanding of Mathematics. By laying a strong foundation in basic mathematical skills we encourage creativity on the part of the student. All students are offered the opportunity to learn as much as their ability and interest will permit. Our ultimate goal is to teach an appreciation of the power and beauty of the world of mathematics.

Art Department

This year art education at Jefferson has been more varied and expressive than ever before. New materials, ideas, processes and an enthusiastic student group have added to the continually growing awareness of the role of art in our lives.

This continuous effort leads to a more finely developed sensitivity and a sense of appreciation contributing to the well rounded individual. We feel that art is one of the very few courses which emphasizing creativity makes vital and necessary contributions toward maintaining an esthetically satisfying, well-balanced society.

Music Department

"The halls are alive with the sound of music" . . . One might arrive at this conclusion while passing through the halls of Jefferson. The "happenings" of the music department have gained city wide recognition for us. Under the direction of Mr. Louis Ugino, the vocal director, Mr. Joseph DeRosa, the orchestral director and Mrs. Lois Vander-Stouw as accompanist, the music department of Jefferson has expanded. There has been a greater participation in the Junior and Senior choirs, voice classes, Jeff Singers, the band, and the Statesman Dance Band. All interested students receive the utmost of assistance from the department's directors, no matter what phase of music they choose.

Co-ed Gym

Mr. J. DeBell, *Instructor*

Here at Jefferson we have a program in health and physical education for everyone. This is a concept rejected by many, but it is one we cherish. We cherish the developmental stage of our Prep group. We cherish the competitive fire of our general program.

We cherish all social and recreational attributes of our upper and senior co-ed gym groups. We cherish the chance to work with our special education and orthopedic classes. We cherish the challenge of our Honors gym and our adapted Physical education groups. Physical education for all and for all groups, that's our philosophy. When you are strong, active, contributing, you are healthy. When you have your health, you have your happiness.

EPILOGUE

As we look back over the years we have spent here at Jefferson, we think of many things. We are grateful for all the help and understanding we have received from our teachers. Our horizons have been broadened to aid us in meeting the challenge of life in an adult world. We smile as we remember the spirit with which we cheered our athletes on to victory. We sigh that these times shall not be any more. We think of our Sophomore Dance, the Jeffe-Gras, Junior Prom, the yearbook, our Senior Ball and graduation. As Seniors, we have been the leaders of the student body. The high school experience has been most rewarding and we are sad as it comes to an end. Yet, this sadness, along with the other emotions which fill our hearts at this time, is a part of the happiness we have had at Jefferson. As we leave, we shall take the memory of our experiences with us and relive them each time we think of our alma mater. Yes, happiness is many things, but above all happiness is having been a part of Jefferson . . .
